PROFILE SUMMARY

I am a Full-Stack Developer with 2 years of experience specializing in React/Next.js for frontend and Node.js/Nest.js for backend development. I build dynamic, user-friendly websites and robust applications tailored to client needs. I also work with Python and Machine Learning. I am passionate about leveraging technology to solve problems and eager to learn and grow in the field

WORK EXPERIENCE

**Digital Addis
intern**

- Developed responsive web apps using React, Next.js, Node.js, and Strapi.
- Built and maintained APIs for seamless frontend-backend integration.
- Collaborated with teams to enhance features, performance, and scalability.

Digital Addis

Full stack web developer

- Actively listened to customers to fully understand requests and address concerns.
- Involved in various projects using tech stacks such as React, Next.js, Node.js, and Strapi.
- Collaborating with cross-functional teams to improve functionality and scalability.
- Gaining hands-on experience across multiple technologies and diverse projects.

**California Training Institute
(CTI)**

Programming Instructor

- Taught basic HTML and CSS concepts to children aged 7-15.
- Developed project-based lessons to create interactive web pages.
- Provided hands-on support and personalized feedback.
- Guided students in building final projects showcasing their skills.
